Deck Lighting Systems

Designed to Shine

Designed to Shine

Get the right mood right under the moonlight with our sophisticated deck lights. Easy to build into a new or existing deck, Trex Deck Lighting is even easier to set up with the Trex LightHub® connection system.

To take the look up another notch, try the optional timer and dimmer for total lighting control. Whether safely illuminating your stairways with LED step lights or proudly highlighting the perimeter of your domain with deck post lighting, our lights offers a long-lasting glow that never fails to match the beauty of a Trex deck.

Setting the Mood

Post Lamps from Trex provide indirect illumination for your deck right from the rail post. Their soft glow is ideal for lighting the surface below, making it easier to see and safer to navigate.

Post Cap Lights from Trex fit directly onto Trex 4X4 Composite Post Sleeves. Their warm white glow points downward for easier wayfinding and beautiful ambience.

Black and White colours available, all others are special order only.

Deck Lighting Features

- **MAKES DECKS SAFER**
Deck lights provide a soft glow that lights the deck for easier wayfinding. They can be installed into the railing, stair risers or the deck itself.
- **WARM WHITE LIGHT**
At 3000 degrees Kelvin, the light is warm white, adding a touch of coziness to any outdoor deck.
- **75% LESS ENERGY USE**
Deck lights use long-life LEDs from CREE, a worldwide leader in energy-efficient lighting. Compared to incandescent, Trex Deck Lighting uses significantly less energy.
- **24/7 WEATHER-PROOF DURABILITY**
Made with high-performance materials, Trex Deck Lighting can withstand years of tough weather. In fact, deck lights are water and salt air resistant, even in the harshest climates.
- **PROTECTED UNDER 7-YEAR LIMITED WARRANTY**
All deck lights are backed by a limited warranty. Trex covers the LED lights and housing for seven years of use.
- **INSTALLS IN A SNAP**
To avoid splitting wires, you can install deck lighting with the built-in Trex LightHub connection system. There's no wiring or electrical skills needed; just plug them in and enjoy.

Stair Riser Lights

- Installed into step risers, these lights are durable enough to handle years of passing foot traffic.
- Simple installation
- Available in three colours: Black, White and Bronze (Bronze is a special order)

Recessed Deck Lights

Recessed Deck Lights from Trex efficiently light the way to, from and around your deck.

Installed flush on the deck board, these subtle dot lights can add functional beauty along the edge of a deck or the underside of a platform deck. Plus, Recessed Deck Lights can be installed with virtually any type of decking material, including Trex.

They beautifully match with the rest of Trex Deck Lighting, as well as our high-performance line of composite decking and railing, and can be quickly installed with the Trex LightHub connection system.
